Re: Detour for Tabor St. – Downtown Crozet Streetscape

Dear Mr. Kelsey:

We have reviewed a proposed detour route via Library Avenue and High Street to allow for a full closure of Tabor Street while Downtown Crozet Streetscape project is underway with the Northwest Region Operations (NWRO) staff and agree to this detour subject to the following conditions:

1. Tabor Street may be closed and the detour used only on weekdays between the hours of 8:00 AM and 4:30 PM excluding holidays.
2. The existing gravel surface of the detour route through the lumber yard must be clearly delineated, graded, and additional stone added as necessary to provide a drivable surface that is acceptable to VDOT.
3. The detour route must be maintained as described in item 2 for the duration of the detour usage.
4. A Maintenance of Operation (MOT) plan will be provided to VDOT for review and approval. Said MOT plan must specify signage and placement for the detour.

If you need additional information concerning this project, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Troy Austin".
